Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
 - If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
 - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
 - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

This office action is in response to the non-responsive amendment filed on 3/28/05. Applicant has failed to properly respond or to respond at all to the following rejection/objections.

Specification

1. The disclosure is objected to because of the following informalities: **The specification fails to specify what a fluid system(s) is? (i.e., provide examples of possible fluid systems).** The specification several times recites the phrase “fluid system(s)”. However, nowhere in the specification applicant specifies what elements comprise a fluid system(s) or what a fluid system is? (i.e., a fuel system, an oil system, etc). No new matter should be entered. Examiner suggests amending the specification to provide some examples of what applicant is calling “fluid systems”. Appropriate correction is required.

In the reply filed on 3/28/05 applicant states that the fluid systems may consist of one or more oil, gas or fuel pipes. Examiner suggests amending the specification to include these examples to clarify what applicant is calling “fluid systems”.

No reply at all was provided for the following 35 USC 112 rejections.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Art Unit: 3746

3. Claims 1-20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

4. Claim 1 recites the limitation “wherein the fluid systems” in line 3. It is unclear if this recitation refers to the fluid systems of the core engine or to the fluid systems of the fan case region. Examiner suggests rewriting the limitation “fluid systems” in a way that distinguishes the fluid systems of the core engine from the fluid systems of the fan case region (i.e., a first fluid system, a second fluid system, etc). No new matter should be entered. Appropriate correction is required.

5. Claim 1 recites the limitation “the fluid systems are connected” in line 3. It is unclear to what element(s) the fluid systems (either the core or fan ones) or fluid systems (both of them) are connected to (i.e., connected to each other or connected to something else). Appropriate correction is required.

Wherein the fluid systems (which one) are connected to ????

Allowable Subject Matter

6. Claims 1-20 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Art Unit: 3746
